

## ColourRail Gates Price List @ 01/10/08

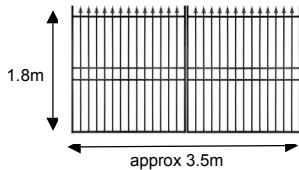

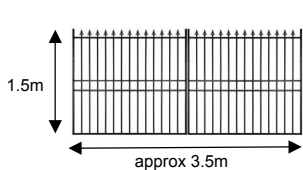

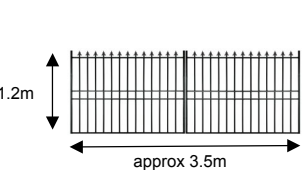

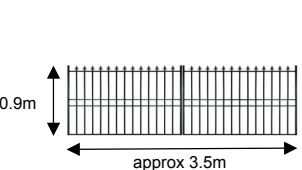

ColourRail gates are made from galvanised tubular steel with a powder coat finish in five standard colours to match Colourfence and ColourRail fencing products. (Green, Brown, Blue, Cream and gloss black). Constructed from 25mm x38mm box section frame and 16mm tubular bars allowing for universal left/right, inward/outward opening.

Prices listed are for standard sizes but bespoke openings can be accommodated for a small additional charge. Driveway gates in excess of 1.8m in height can be provided by special commission.

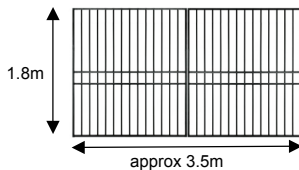

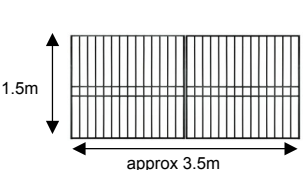

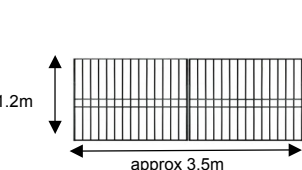

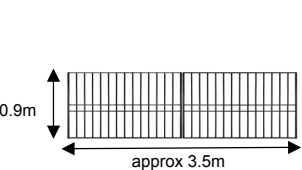

Gates will need to be hung from colour coded steel square posts of an appropriate size if erected independantly or as part of fence run, but can also be hinged from walls or pillars without the need for additional posts if circumstances allow. Prices for delivery and installation vary dependant on location and configuration but typically these would be in the region of £125 for a pedestrian gate and £220 for a set of driveway

Hinges, locks, drop bolts etc are not included in the gate prices because of the large number of options you can select from so please do not hesitate to contact us to discuss your exact requirements and we will happily supply an all inclusive indicative price
