

Colourfence Retail Price List @ 01/07/08

Every Garden is unique so a price for fitting cannot be confirmed until we have undertaken a site survey. For a straightforward installation prices start from £35 per plain panel and £40 per trellis panel, (ex. Vat) although for difficult ground conditions and bespoke panel sizes we may charge a little more. For smaller projects a minimum fit charge may apply in certain areas.

Plain Panel Components

Trellis Panel Components

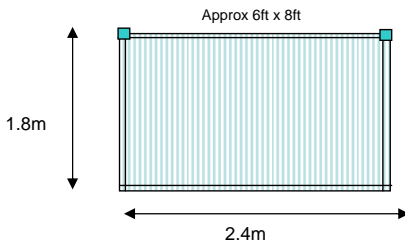

Please note that our panels are 8ft in width rather than the more standard wooden 6ft.

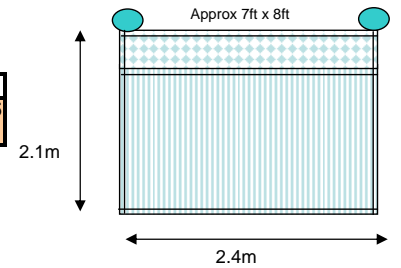

Our panels come complete with posts and post caps. Trellis panels come with a ball cap as standard, plain panels with flat caps. Ball caps can be substituted for plain and vice versa by adding or subtracting £4.53 (inc VAT) per panel.

Please allow min £35 per panel for fitting Plain panels

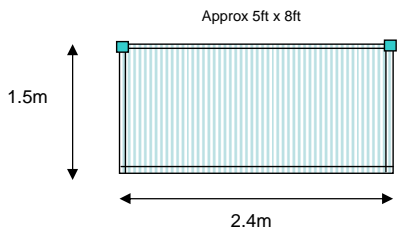

Please allow min £40 per panel for fitting Trellis panels

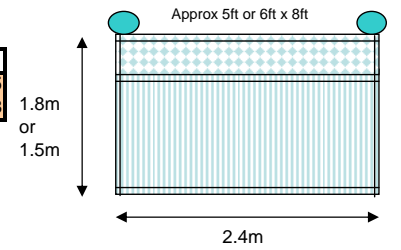

1.8m (6ft) Plain Panel
